Welded Wire
 ARCHITECTURAL FENCE

Panels and Hardware

Round Post Brackets

Bracket Sizes
 625" x 1.250", 700" x 3.250"
 500" x 2.250", 2.500" x 3.250"

Round Brace Bracket and Tension Band

C Post Brackets

Bracket Sizes
 1.660", 1.875", 2.375"
 2.875", 4.000"

C Brace Bracket and Tension Band

FEATURES:

- Versatile system available in various panel & mesh configurations, finishes and colors
- Standard wire gauges available from 10 GA. to 4 GA.
- Cost effective fence options
- Produced with precision state of the art equipment
- High strength welds
- Easily adapts to most existing framework
- Improved visibility

BENEFITS:

- Easy and fast installation
- Clean, durable, and attractive architectural lines
- Suitable for Public, Industrial, Commercial and Transportation applications
- Custom manufactured to your specifications
- Tighter dimensional tolerances exceed ASTM and other industry standards
- Compatible with most intrusion detection systems
- Long term durability even in high corrosive environments

C. E. Shepherd Company L.P.
